### RECOGNITION IS URGED

Delegates Say Blockade Is Injurious to the Whole World.

London, June 11.—Possibility of the abandonment of the Spa conference between representatives of the allied governments and Germany is being discussed in European capitals.

The source of the independent socialist and the communists in the German elections holds to the belief in France that Germany is less than willing to carry out its promises. This view was expressed by German Foreign Minister, Georges Clemenceau, who has now a new Ministry in that country, it was noted. Any further reading on the question of German communism, it might be expected to result from the meeting. It is recalled that Major Tchoumoff opposed Italy's entrance into the war.

### 'CROMWELL' NEEDED TO HANDLE IRELAND

Unionists Demand Speedy Measures to Restore Order in Ireland.

*Special Cable Despatch to The Sun and New York Herald, Copyright, 1920, by The Sun and New York Herald.*

London, June 11.—The Westminster Gazette asserts that Sinn Feiners who have been released from Wormwood Scrubs Prison after serving their sentences were accepted by "persons friendly to Ireland" as soon as they reached England. The newspaper quotes from the press of Dublin that the Sinn Feiners had no difficulty in finding work in London.

The report was brought to England by Benjamin Turner and Tom Shaw members of the British labor delegation which visited Russia for presentation to the Labor Congress at Scarborough. They brought along a letter from Nikolai Tchernov, Bolshevik Foreign Minister, to the Labor delegation, assuring them that the Russian government would grant a pension to the veterans.

London considers the surprise expressed by the delegation at the red terror, the suppression of freedom of the press and the measures and dooms that the red terror is the defense of the working-class.

The report of the press and assembly in a bourgeois democracy means freedom to protest against the workers.

In turn, London expresses surprise that the viewpoint of part of the delegation coincides with the bourgeoisie.

The labor delegates demand the maximum freedom with the express and declaration which they furnish.

The report of the press and the action of the government in favor of the independence of Ireland. The report said to be untrue.

The report describes the blockade as injurious to the world and disastrous to Russia, and makes reference to the opinion of others to whom the American soap and medical supplies have been sent every although great efforts have been made toward negotiation. London also says that the Sinn Feiners were released from prison.

The appeal for release was being made in favor of an appeal to military authorities while the war criminals provide new presents for opposing individual liberty and preventing freedom of expression.

The report says that all parties to the conflict of the country, in emphasizing the breakdown in negotiations through lack of raw materials and advances, the immediate recognition of Ireland.

The Cabinet has today issued a statement that it was authorized that no radical change in the Government's Irish policy was considered. It was intimated that the decision reached may be what was necessary to restore order in Ireland.

The consideration of such measures was demanded by the strong demands of members of the Unionists of Birmingham last night for a "Cromwell" to handle Ireland.

London, June 11.—Afternoon.—After a meeting in the Dublin Hotel, Dr. E. H. Ebert, German Chancellor, has resigned in the resignation of the Cabinet is ended by the arbitration of the foreign ministers. It probably will lead to new elections.

A Vienna was taken by surprise by the resignation of Chancellor Karl Renner and all the Socialists' associations and organizations. All reports during the last few days have represented the expressed differences of the coalition as growing. Indeed, the resignations today showed temporary but considerable differences between the Socialists and the Catholics in the National Assembly. One is the fact that the Minister of War and pronounced a decree of army discipline which had been formulated without being previously laid before the Cabinet and could not be modified.

Chancellor Renner expressed their correspondence in regarding the Catholics that they had agreed to similar ideas on a previous occasion. The leader of the Catholics thereupon announced that if the Social Democrats should hold the view that the Christian Socialists' party can reach its decisions only under pressure of their threats, then we declare openly that the coalition has not been held together by army orders, but by the constitution and tax programs.

Vienna, June 11.—In the course of the former Cabinet negotiations, it was said that the members of the Left have stood ready for some days to seize the first pretext for a break, feeling that the Christians Socialists were steadily blocking legislation in which the forces were pitted. The break was hastened by external reasons due to the incident of draft rescripts, which forced the Socialists to discontinue their antiaircraft training in food, killing money. The conservative provincial Government is charged with blocking an investigation and punishment of the offenders. The reactionary anti-Semitic demonstration of Monday was followed by Monarchs' decision.

Reports of a strong movement in Tyrol, Salzburg and portions of Upper Austria to join Bavaria and create a Catholic Kingdom under Prince Ruprecht also contributed to the fall of the Government. It is understood that as a protest against these reactionary events the Socialists decided to attempt to throw responsibility for the Government upon the Christian Socialists and await the outcome.

They must fight against drugs and drink and help to rebuild the world." Her estimate is several million marks.
